The image shows the top portion of the Eightfold.ai website. At the top, there is a dark blue navigation bar with the company logo and name 'eightfold.ai' on the left, and a series of menu items: 'Products', 'Solutions', 'Services', 'Learn', 'Customers', 'Events', and 'Company' on the right. Below the navigation bar is a decorative graphic consisting of several wavy lines of blue dots. The main content area has a dark blue background. The headline 'Everything talent, powered by AI' is centered, with 'AI' in a larger, light blue font. Below the headline is a sub-headline: 'Our AI platform for all talent brings to light everything you need to hire and develop people to their highest potential'. At the bottom of this section is a light blue rounded rectangular button with the text 'Ready for greatness?' in white.

The image is a screenshot of the Veesion website. At the top, there is a blue navigation bar with the Veesion logo on the left and menu items: VIDEO SURVEILLANCE, PARTNERS, PRESS, ABOUT, and CONTACT US. A UK flag icon is on the right. The main content area features two side-by-side images of a supermarket aisle. The left image shows a person walking away from the camera. The right image shows the same person with a colorful, segmented AI detection overlay. Text overlays on the right image provide activity and posture probabilities: Walking: 79.46%, Normal: 96.94%, Standing: 87.51%, and Normal: 78.61%. A white button with the text 'Request a Demo' is positioned in the lower-left area of the main content. At the bottom, a blue banner contains the text: 'Thanks to Veesion, thousands of retailers around the world are reducing shrinkage by over 60%'.

[About Us](#)

## Our Digital Therapeutics

# Evidence-based digital interventions that deliver novel and personalized care

Digital Therapeutics (DTx) are evidence-based therapeutic interventions delivered as mobile software applications. They undergo rigorous clinical and regulatory review, ensuring the same high standards of efficacy and safety as with traditional drugs. A DTx can be prescribed by a physician alongside a drug or therapy or as a stand-alone treatment.

# Обучение роботов

## BENEFITS

### Solve the labor shortage

Robots become co-workers for tasks that humans no longer want to do

### Save high programming costs

Save up to 75% of robot programming costs

### Keep automation flexible & fast

Teach different robot skills as fast as batches change

## Business benefits

## What Hazy synthetic data enables you to do

01

### Reduce risk

Use data without any sensitive information to protect your customers, stay compliant and avoid breaches.

02

### Streamline transformation

Quickly generate reliable test data for a faster way to validate new systems and technologies.

03

### Innovate faster

Use synthetic data to quickly validate external vendors, test new products and supercharge your innovation pipeline.

04

### Grow revenue

Unlock incremental revenue streams with data you can share, sell and build on without restriction.

НЕВАЖНЫЕ ВОПРОСЫ

Когда нас всех заменят роботы?

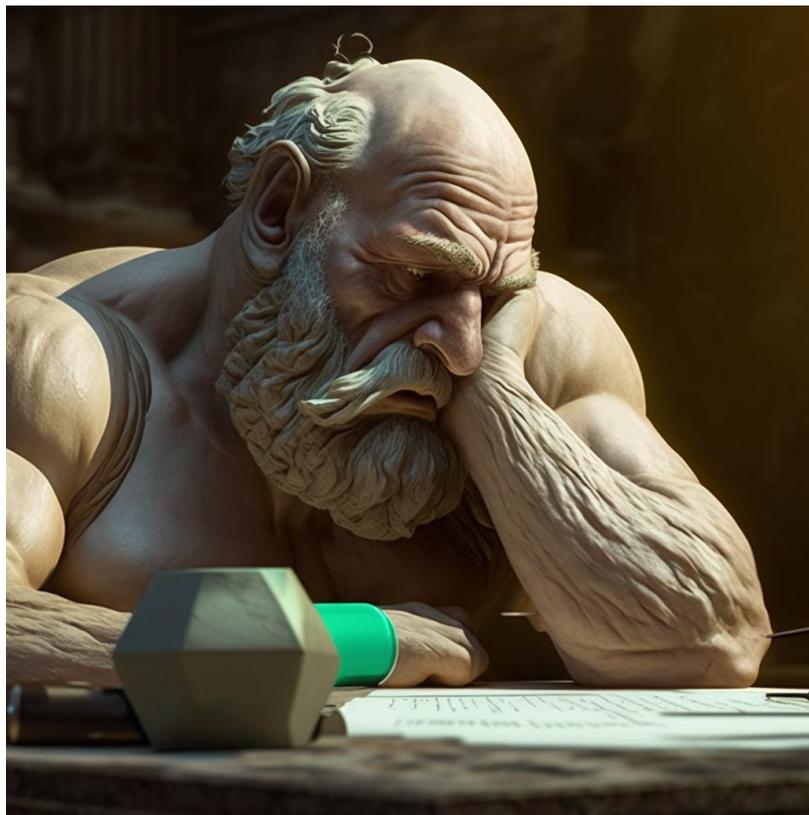

Если мы кого-то учим, то он станет лучше нас

Мы все станем глупее?

“В этом, Федр, дурная особенность письменности, поистине сходной с живописью: ее порождения стоят, как живые, а спроси их – они величаво и гордо молчат. То же самое и с сочинениями: думаешь, будто они говорят как разумные существа, но если кто спросит о чем-нибудь из того, что они говорят, желая это усвоить, они всегда отвечают одно и то же. Всякое сочинение, однажды записанное, находится в обращении везде – и у людей понимающих, и равным образом у тех, кому вовсе не подобает его читать, и оно не знает, с кем оно должно говорить, а с кем нет. Если им пренебрегают или несправедливо его ругают, оно нуждается в помощи своего отца, само же не способно ни защититься, ни помочь себе.”

Очень грустный философ

**ВАЖНЫЕ ВОПРОСЫ**

# Переоценка человеческого труда

# Образование

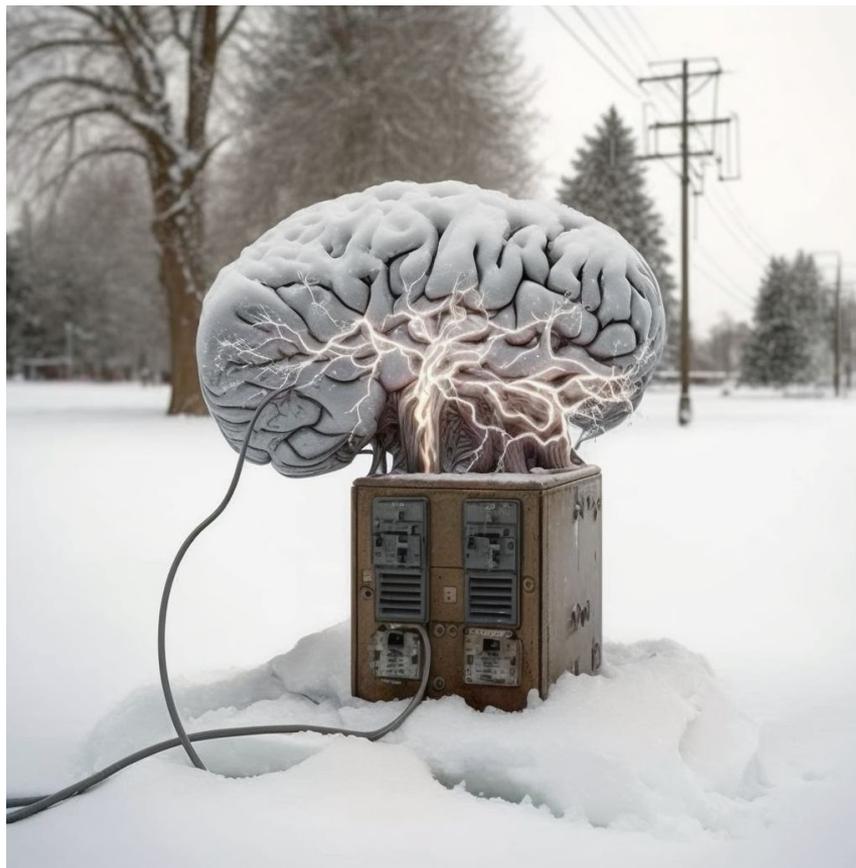

# Общество vs Личность

А это точно не хайп?
